

2002 Crime Report

Saint Paul Police Department

- Calls For Service
- Part I Crimes
- Selected Part II Offenses
- Quality of Life Calls
- Planning District Statistics
- Arrests Data
- Crime Comparisons to Similar Cities
- Crime Maps
- Part I Offenses by Grid

William K. Finney, Chief of Police
Research and Development
Saint Paul, Minnesota

Introduction

The Saint Paul Police Department crime report serves as the primary description of citywide crime statistics. The 2002 crime report is similar in nature to the format of the 2001 crime report, containing sections describing police calls for service, part I¹ and selected part II offense graphs, arrest demographic information, crime comparisons to similar sized cities, part I and selected part II offenses by planning districts, planning district maps, an appendix showing citywide crime maps, and an appendix listing part I offenses by grid.

The 2002 crime report is primarily derived from the data sent to the Minnesota Bureau of Criminal Apprehension as part of the FBI Uniform Crime Reporting (UCR) system. The 2002 crime report follows the FBI UCR system of reporting which requires police departments to report homicide, rape and aggravated assault totals as the number of victims, not the number of events. Auto theft totals reflect the number of vehicles stolen. All other offense totals (robbery, burglary, theft and arson) are reported by event, not victims.

The 2002 crime report is available for viewing and printing on the Internet at <http://www.ci.stpaul.mn.us/police>. Permission is granted to print, copy, or distribute individual sections of the crime report as long as the general introduction and section introduction pages corresponding to the selections are printed, copied, and distributed with them. Questions regarding the crime report can be answered by the Research and Development Unit at 651-292-3501.

¹ Part I Offenses are defined by the FBI Uniform Crime Reports as homicide, rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. Further definitions are provided on the title page preceding each section.

Calls for Service

Calls for service include all requests for police assistance except for cancelled calls. The final disposition of a call does not always match the type of call initially received.

*1998-2002 Calls for Service by District

2002 Calls For Service Call Disposition Breakdown

* Traffic Stop- Advise calls were excluded from the '1998-2002 Calls for Service by District Graph' for comparative means. (Traffic Stop-Advise calls were not recorded until July 1999).

Traffic Stop-Advise call totals are as follows:
 1999 (July-Dec) = 17,602
 2000 = 46,411
 2001 = 48,707
 2002 = 57,323

12 Most Common Call Types: 2002

Type	Percent of Total Calls	SPPD Calls for Service by Minute
1 Traffic Stop- Advise	21.8%	9
2 Investigate	14.1%	14
3 Traffic Violation	6.5%	31
4 Domestics	5.5%	36
5 Theft	5.0%	40
6 Traffic Accident	4.4%	45

Type	Percent of Total Calls	SPPD Calls for Service by Minute
7 Disorderly Persons	3.9%	52
8 Alarms	3.8%	53
9 Assist Calls	2.7%	74
10 Disturbance Calls	2.2%	89
11 Vandalism	2.2%	91
12 Suspicious Activity	2.0%	101

Example: 1 traffic stop-advise call every 9 minutes

Reported Offenses

Offense totals consist of calls for service where an official report is filed with the SPPD. Homicide, rape, and aggravated assault offense totals are recorded in accordance with UCR guidelines, which count the number of victims, not the number of crime events. All other Part I crime offenses report the number of events, not victims. If a report is written for a person who committed three offenses, the crime event will be categorized under the incident code of the most serious offense.

Actual and reported offenses sent to the Bureau of Criminal Apprehension are displayed on page four. Both are required to be reported to the FBI. Reported offenses are used for comparative purposes on pages 5-13. Part II offense totals may not reflect corrections made to classifications as a result of investigation pursued after the initial report.

2000/2002 Part 1 Actual Offenses

* Totals reflect actual offenses, not reports written.

Part 1	YEAR END TOTAL			Percent Change		
	2000	2001	2002	'00/'01	'00/'02	'01/'02

Total Part I	19,192	19,522	17,921	1.7%	-6.6%	-8.2%

* Reported (NOT Actual) Homicide totals include justifiables; 1 in 2000, 2 in 2001, 3 in 2002.

** Includes Homicide, Rape, Agg. Assault.

*** Includes Robbery, Burglary, Theft, M.V. Theft, Arson.

Homicide

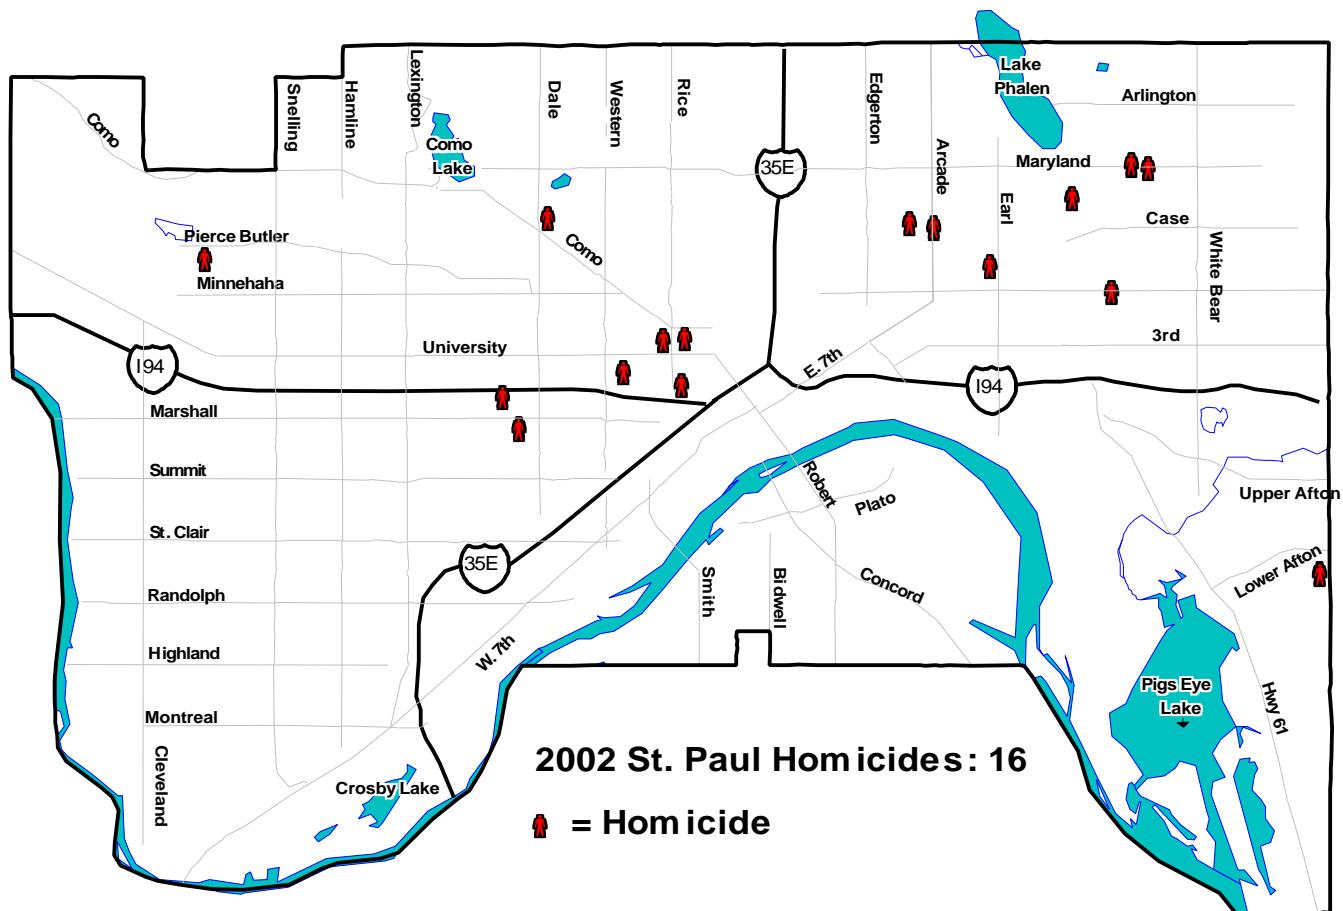

UCR Definition: The willful killing of one human being by another.

	Homicides by Year						
	1996	1997	1998	1999	2000	2001	2002
Homicides	26	23	23	14	22	9	13
Justifiable	3	1	1	0	1	2	3
Total	29	24	24	14	23	11	16

* Justifiable Homicides are defined by the BCA as the killing of a felon by a peace officer in the line of duty or the killing (during the commission of a felony) of a felon by a private citizen.

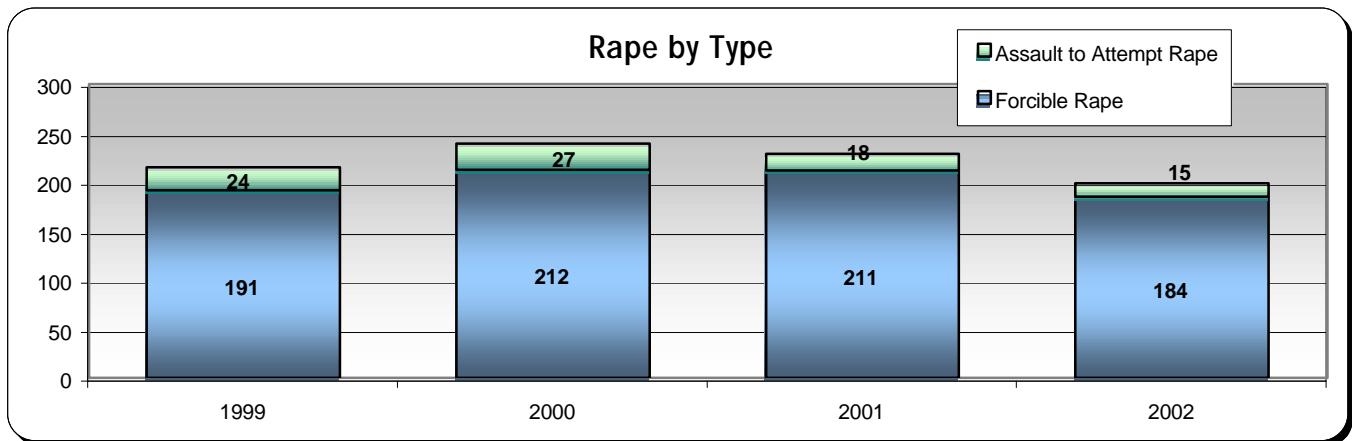

Homicides by District								
	1999	% 1999	2000	% 2000	2001	% 2001	2002	% 2002

Total	231	100.0%	229	100.0%	237	100.0%	209	100.0%

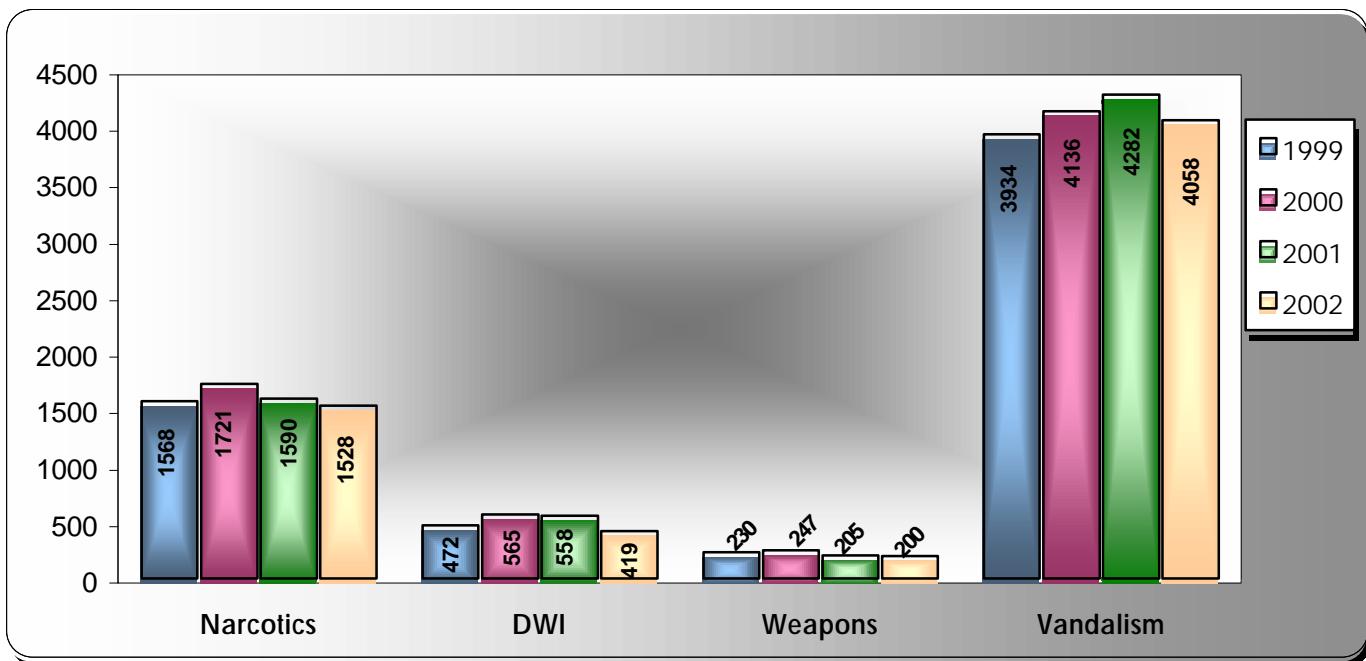

Selected Part II Offenses

Narcotics: Possession or selling of narcotic and illegal non-narcotic drugs.

DWI: Driving while intoxicated.

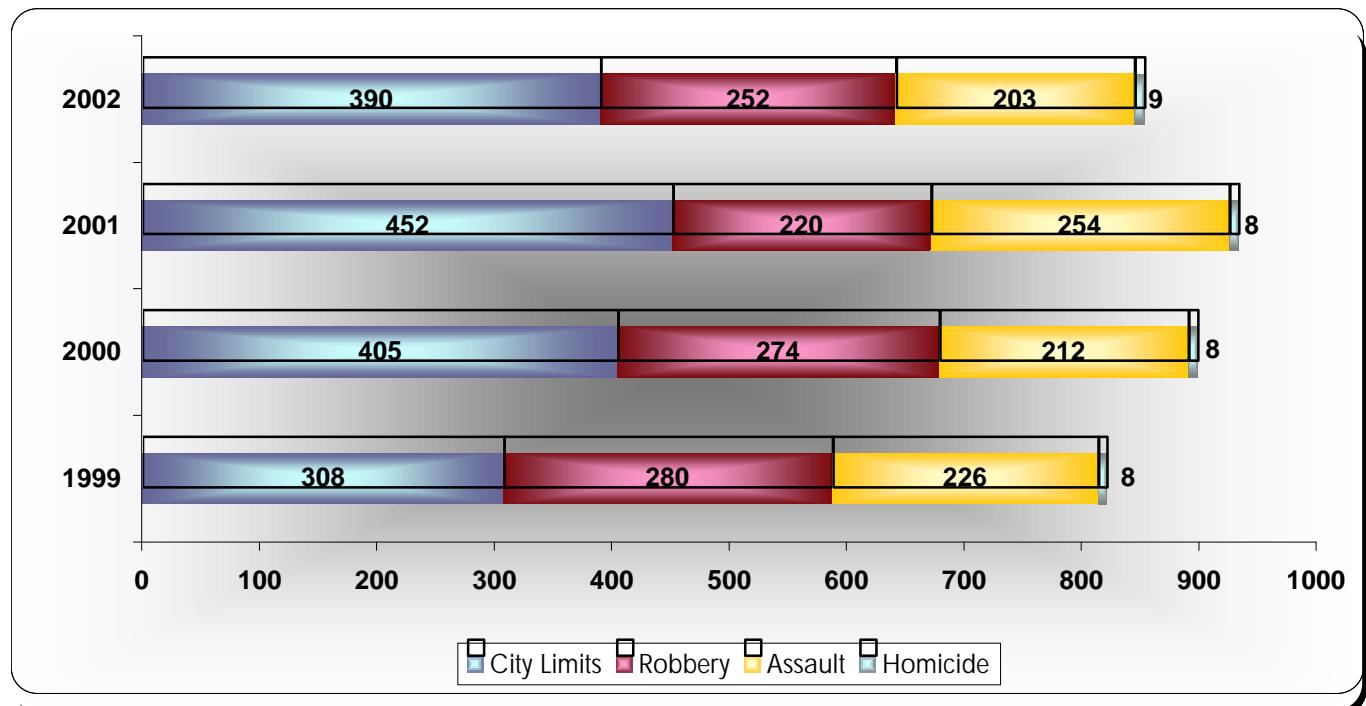

Weapons: Illegal possession, transfer of weapons

Vandalism: Criminal damage to property, includes graffiti.

Shots Fired Offenses

Shots fired offenses include Part I offenses where the incident code specifies use of a firearm and discharge

Planning District Council Reports

The Saint Paul Police Department is divided into 17 separate planning districts. There are 202 police grids that further divide Saint Paul. All district council statistics are derived from Saint Paul grid statistics. Saint Paul grids do not align with the exact planning district boundaries. As a result, a crime in one district may occasionally be reported in another. The map in the proceeding pages 'Saint Paul City Planning Districts by Grid', graphically displays each planning district and its corresponding grid numbers. Again, note that each grid does not fall into the exact planning district boundaries and that all planning district offense data is derived from grid police boundaries not planning district boundaries.

Crime information was derived from Saint Paul 'reports written' in specified planning districts. Totals may or may not match totals in the rest of the crime report. If a report did not have a designated planning district, it is not included.

This section also supplies planning district population data. The Census Bureau supplies Saint Paul population data by census tract block, not by planning districts. The map 'Saint Paul Planning District Population Boundaries' displays population by planning district, using the census block tract data as boundaries. Census tract blocks do not align with the exact boundaries of the planning district boundaries. For this reason, population data reported may vary slightly from district to district.

Arrest Demographic Information

Arrest demographic information is derived from booking records for arrests made by Saint Paul Police. Each offense that a person is arrested for is counted in the offense total.

2002 juvenile arrests were unavailable for the publication of the 2002 SPPD arrest totals.

2001 Part I Offense Comparison

The following pages compare city part I offense totals from 2001. All city crime numbers are obtained from Crime in the United States 2001, published annually by the U.S. Department of Justice. Cities used for comparison are within 100,000 of the Saint Paul population.

All graphs compare part I crime totals per 1000 persons.

Numbers on map refer to Saint Paul grids.

A grid is approximately 32-40 sq. blocks.

2002 Saint Paul Intersections with 30+ Accidents

Appendix II

Part 1 Offenses by Grid

Each grid contains a count for each part 1 offense.

Totals for homicide, rape and aggravated assault indicate the number of victims per grid as defined by the BCA.

Auto thefts reflect the number of vehicles stolen.

All other part I offense (robbery, burglary, theft, arson) totals reflect the number of events, not victims.

Med = Median. Median represents the midpoint of all grid totals.

Mean is calculated by dividing Total by number of grids with residents.

1990 population by grid was used because the 2000 data is unavailable by St. Paul grid.
